Architecture

Supplier: JH Wilberforce

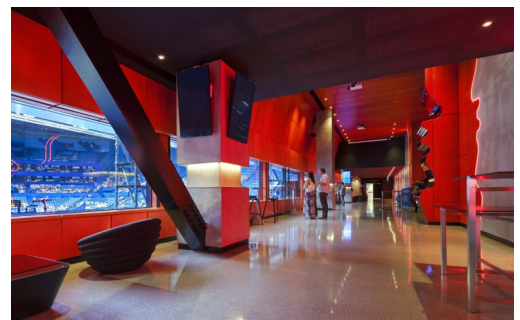

Opened: 12 November 2012

Photography: John Gollings

RAC Arena is an entertainment and sporting arena in the city centre of Perth, Western Australia.

Mirotone wood coatings such as MIROSTAIN stains in blue, honeycake and black were used to create the striking design inside with the blue being offset by the warmth of the honeycake stain. MIROTHANE PU blue polyurethane topcoat continued the colour theme in the main stadium, creating a sea of blue. MIROTHANE PU polyurethane topcoat in red was used to create the contrast of the bright red of the VIP guest lounge.
